

Children's Discovery Center Room

Looking for something fun for your children to do while visiting The Home of Franklin D. Roosevelt National Historic Site?

Come and visit our Discovery Center room, which resides between the FDR Home and Stables. Children will learn about FDR's life interests here at his home through our 10 hands-on interactive and exploratory play stations, and other activities.

The stations encourage authentic learning through creative play that intrigues the senses, encourages critical and creative thinking, and explores FDR's home life in a kid friendly way.

CHILDREN MUST BE ACCOMPANIED BY AN ADULT

Interactive Exhibits Include:
